Data-Sheet USB Humidity

- Precise Humidity plus temperature sensor controlled by USB
- Contained in black plastic case 44 x 30 x 23 mm
- Multiple sensors at a single PC controlled by unique the serial number
- Measuring accuracy ±0,2° Celsius and ±2 % relative humidity (RH) in a wide range
- Measuring resolution 0.01° C / 0.01 % RH
- Valid temperature range -20° to +80° C
- sparkling-protectet IP44
- ClewareControl features networked measuring
- The control software ClewareControl for timed switching, USBswitch lies with a graphical user interface and USBswitchCmd for switching via command invocation for download
- Export of the measured values for Excel etc. (ClewareControl)
- Automatic saving of the measured values (ClewareControl)
- Application Program Interface (DLL) for easy integration in user applications
- Any sensor may control up to 256 actions in ClewareControl, e.g. alarm sound, **email** or USB-Switch, SMS via the command line interface
- No driver installation needed with Windows® x86/x64 variants. (® Microsoft Windows is a registered trademark of the Microsoft Corporation.)
- Use with LabView® possible
- **Linux** support available.
- RoHS, CE & EN60950 conform/ IP44
- USB cable length see cable length option
- Less then 25 mA power consumption
- **4 years warranty**
- Made in Germany
- More infos could be found at USB-Humidity

Customs Tariff number: 90258040
Country of origin: Germany
